

SHEET METAL FOLDER

RED-3200/0.8/160

Modern bending machine with cut-outs, which allows bending on three sides. This applies to some window sills, scoops or drawers. The machine will also work well when processing window sills with bent sides and hooks to the window. A very important element of this 3m bending machine is a narrow bending beam, only 15mm, which allows bending the standing seam. The front depth stops and rear frame are included in the price.

Specifications

Max. working length: 3200 mm

Bending: 0.8 mm steel sheet

1.2 mm (aluminum, copper, zinc)

Bending beam: 15 mm

Bending angle max. 150 degrees

Max. opening: 80 mm

Weight: ca. 700 kg
