

SHEET METAL FOLDER RED-1400/1.2/160

The RED-1400/1.2mm bending machine is a compact and user-friendly machine designed mainly for roofers and tinsmiths.

Functional and reliable in use, it guarantees trouble-free operation without deformation of working elements.

Thanks to the narrow folding beam, you can make complex folds.

The RED-1400/1.2 mm bending machine has transport wheels and 2 levers on the right and left sides in the set.

Specifications

Cut-outs on both sides of the machine 60 mm/45°

Maximum working width: 1400 mm

Bending capacity: up to 1.2 mm (steel sheet)

Bending angle: 160 degrees

bending edge thickness: 15 mm

All non-ferrous metals 30% more bending capacity

Cutting with roller shears over the entire working width

Lifting the upper beam in different positions

Max opening. 80 mm

Weight approx. 250 kg
