

SHEET METAL FOLDER

RED-3200/1.0/160

A modern, professional bending machine with side cutouts that allows bending on three sides. This applies to some windowsills, scoops or drawers. A very important element of this 3 m long bender is the narrow folding beam with a length of only 15 mm, with which the standing seam can be bent.

Specifications

Maximum working length: 3200 mm with a cut-out (6 cm on each side)

Bending capacity: 1.0 mm (steel)

1.2mm (aluminum, copper, zinc)

Thickness of the bending beam: 15 mm

Bending angle: max. 160 degrees

Max. opening: 80mm

Weight: about 750 kg.

Bending on 3 sides -> cutouts on the side

Cutouts 60mm/45°
